AMR ELHABBAL

Software Engineer
Allen, TX | (310) 800-1976 | elhabbal_amr@yahoo.com

SUMMARY

Software engineer with over 10 years of experience building responsive, production-grade web applications, with deep expertise in React.js and Redux at enterprise scale and full-stack experience in TypeScript, Python, and FastAPI, including AI/LLM-powered tools. Skilled across the full development lifecycle from design/wireframes to API integration, state management, and cloud deployment, working independently or within cross-functional, offshore-inclusive Agile teams.

TECHNICAL SKILLS

Core: React.js, TypeScript, Redux, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, SASS/LESS, Bootstrap
Tooling: Webpack, NPM, Vite, Docker, Render, Git/GitHub, JIRA, Figma
APIs & Data: REST, JSON, GraphQL, Python/FastAPI/Flask, PostgreSQL (Neon), JWT
AI-Assisted Development: GitHub Copilot — accelerated coding/testing/docs under enterprise governance.
Practices: Agile/Scrum, responsive/cross-browser development, cloud deployment, technical documentation

EXPERIENCE

Full-Stack Developer | Neura — AI Software Engineering Assistant (Current Project) *01/2024 – Present*
Live: https://neura-client.onrender.com/
Tech Stack: React, TypeScript, Python, FastAPI, PostgreSQL (Neon), SQLAlchemy, Alembic, Tailwind CSS, Docker, Render, REST APIs, JWT Security, LLM Integration (OpenAI/Anthropic/OpenRouter), AI-Powered Developer Tools, Git/GitHub, Cloud Deployment

- Designed and built a full-stack AI assistant for software engineering tasks, with a React/TypeScript front end and a FastAPI/PostgreSQL back end secured with JWT authentication.
- Integrated multiple LLM providers and AI agents (OpenAI, Anthropic, OpenRouter); containerized with Docker and deployed on Render with a Neon serverless PostgreSQL database.

Software Engineer | JPMorgan Chase, AWM. — Plano, TX *06/2019 – 12/2023*

- Overhauled the UI of an internal tool with React and Redux, migrating a multi-page experience to a single-page application; built responsive components from Figma designs consuming REST APIs.
- Managed cloud deployments across dev, test, and prod; collaborated with backend, QA, and offshore teams in Agile/Scrum to deliver UI features on sprint timelines.

Front-End Developer | Hitachi Consulting (Toyota North America) — Plano, TX *09/2018 – 06/2019*

- Built responsive pages and interactive UI with HTML, CSS, Bootstrap, JavaScript, and React.js; used Webpack, NPM, and Jenkins for builds and releases in an Agile/JIRA process.

Web Developer | Balfour — Dallas, TX *04/2017 – 08/2018*

- Developed front-end pages with HTML5, CSS3, Bootstrap, and ReactJS from approved prototypes, using Webpack and Redux; built SASS modules and coordinated with designers and offshore teams.

Web Developer | Amdocs (AT&T) — Richardson, TX *04/2015 – 02/2017*

- Implemented UI flows from wireframes using HTML5, CSS3, and JavaScript; built reusable LESS/SASS web components with back-end developers and UX designers in an offshore Agile process.

Web Developer | Pro-Tek Consulting — Woodland Hills, CA *01/2013 – 02/2015*

- Developed client/server web applications with HTML5, CSS3, Bootstrap, JavaScript, jQuery, AJAX, XML, and JSON, including custom UI widgets and third-party API integrations with cross-browser support.

EDUCATION

Fullerton College — Fullerton, CA — Computer Information Systems (CIS), Web Development Certificate, May 2013

Bachelor of Law
